General Information

We acknowledge that this conference is being held on the traditional homelands of the four bands of the Spokane Tribe of Indians: Upper Band, Middle Band, Lower Band, Chewelah Band. Since time immemorial, the Spokane Tribe of Indians has lived and cared for these grounds. We pay our respects to their Elders – past, present, and emerging. We show gratitude to the land, river, and peoples who have been fishing, hunting, harvesting, and gathering here for generations. May we learn from one another's stories, so that we may nurture the relationship of the People of the Spokane Tribe and to all those who share this land.

We encourage you to learn about the land you reside on and to join us in advocating for the inherent sovereignty of Indigenous people.

Registration

All participants must register for the conference and wear their name badges at all times. Registration for the preconference sessions and the Awards Lunch were required by April 3rd. If you registered for preconference sessions or Award Lunch before the deadline, access to these events will be printed on your name badge.

Continuing Nursing Education Credit

This nursing continuing professional development activity was approved by Oregon Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.

A maximum of 18.25 contact hours is available for the conference. The expiration date for awarding contact hours is December 31, 2025. All evaluations are completed online.

None of the presenters or planners for this activity have relevant financial relationships with ineligible companies to disclose.

To receive your certificate:

Visit the online evaluation site, which will be emailed to you along with log-in information, and complete an evaluation of every preconference, plenary, and concurrent session you attend. You may log-in during the conference or following the conference to complete the evaluations.

Complete the overall conference evaluation form, which will be available after the conference has adjourned.

Once all evaluations are complete, including the overall conference evaluation form, the system will calculate your contact hours and you may print your certificate. The print option will not be available until the conference has adjourned, at which time the overall evaluation form will be available.

The WIN Program Committee uses your feedback to assist in planning future conferences.

Silent Auction

WIN's annual Silent Auction will be held in conjunction with the Welcome Reception on Tuesday evening. Items should be picked up at the conclusion of the auction. Proceeds from the auction support WIN awards, including the joint grants with CANS, NLN, and Sigma.

Exhibits

We welcome our exhibitors and encourage all participants to visit their booths in Grand Ballroom C and by the conference registration desk.

Posters

WIN peer-reviewed posters have been grouped by keyword/topic. Research and Information Exchange (R&IE) posters have been grouped by member institution. There is one hour during each of the five poster sessions in which the primary scheduled activity is viewing posters. Presenters should stand by their posters during these hours.

Awards Lunch

WIN awards will be presented during the Awards Lunch on Wednesday from 12:15 to 1:15 p.m. Admission to the lunch will be printed on name badges for those that reserved a seat in advance.

Membership Assembly

The WIN Membership Assembly will be held on Wednesday from 5:10 to 5:55 p.m. All WIN members are invited to attend this annual business meeting.

Special Interest Group

Special Interest Group meetings will be held on Thursday late afternoon/evening and are open to all.

Special Appreciation

We extend our gratitude to our Board of Governors, Program Committee, abstract reviewers, moderators, and to all WIN committee members. A list of committee members appears in the back section of the conference proceedings.

Exciting Job Opportunity

Associate Dean for Research

(professor, Tenure)

About the College:

The College of Nursing is recognized as one of the **top research institutions** in the nation and a **leader** in health sciences education and scholarship. According to the *Blue Ridge Institute for Medical Research* rankings, the college is ranked **#19 in NIH funding** (2023), with a goal to break into the Top 10.

- BSN program ranked #13 among public institutions and #19 nationwide; DNP program ranked #10 among public institutions and #19 nationwide by *U.S. News & World Report*
- College of Nursing has 40+ PhD students, 450+ DNP students enrolled

The University of Arizona (U of A) is located in the beautiful city of Tucson, which boasts nearly 300 days of sunshine each year and has low humidity. As the second-largest city in Arizona, Tucson offers a wide array of dining options, museums, historic sites, hiking and biking trails, golf courses, and a rich cultural and historical landscape. Additionally, the region is home to some of the world's most unique flora and fauna.

Position Highlights:

The University of Arizona's College of Nursing is seeking an NIH R01-funded Associate Dean for Research (ADR) to lead its prestigious nursing research enterprise, which is highly ranked and well-funded. The ADR will enhance our research and faculty scholarship objectives by fostering a supportive mentoring environment that boosts research productivity among faculty and pre- and post-doctoral scholars. They will oversee the Office of Research and Scholarship (ORS) resources and assist faculty and student colleagues in their research scholarship, ensuring that outcomes are visible. The ADR will collaborate with the administrative team and the Division Directors to manage and expand available resources and report directly to the Dean of the College of Nursing.

- Advance faculty research capacity by providing research development sessions, faculty resources, and research mentoring.
- Facilitate the attainment of extramural research funding across clusters of investigators.
- Collaborate in and initiate the recruitment of research-intensive faculty.
- Develop and create visibility for college-aligned research and research training across constituents.
- Broker partnerships with community leaders and agencies for synergistic research initiatives.

Preconference: Street Nursing: An Innovative Educational and Practice Model to Address the Complexities of Homelessness

Pre-registration required

Facilitators: Tiffany Allen, DNP, RN, FNP-BC, PCCN-K; Marilyn Gran-Moravec, MSN, RN; Aina Hale, MS, RN; Joanne Noone, PhD, RN, CNE, ANEF, FAAN; Rachel Richmond, MSN, RN; Oregon Health & Science University School of Nursing, Ashland Campus

Location: Birch Ballroom

Nurses in every specialty care for people experiencing homelessness (PEH), a population with some of the worst health in the country with higher rates of severe mental illness and substance abuse, suicide, and sudden death due to overdose, gastrointestinal disease, infection, and arrhythmias than the sheltered population. Lack of competency in caring for PEH by health care providers exacerbates health disparities for this vulnerable population through perpetuation of culturally accepted stigma. The Street Nursing Team (SNT) is an emerging, innovative faculty practice model that includes clinical and didactic nursing education at the undergraduate and graduate levels that provides care for persons experiencing homelessness (PEH) at multiple readily accessible, intermittent, and regularly scheduled sites in southern Oregon communities. The SNT's specific purpose is to provide culturally-aligned care to PEH in rural and underserved southern Oregon communities by strengthening the capacity of nursing students to manage social determinants of health improve health equity, and deliver quality, unbiased care. The SNT, with validation by national experts for people experiencing homelessness, developed registered nursing key competencies; associated knowledge, skills, and attitudes; and concepts, content, and learning activities to serve as an educational framework in providing care for people experiencing homelessness. This framework has national application for adoption into other faculty practice models and undergraduate nursing curricula to advance health equity for people experiencing homelessness. A toolkit of learning activities to support these competencies will be shared.

1-2:30 PM

Preconference: Defying Gravity and Murphy's Law: What to Do When Things Go Wrong During Research Studies

Pre-registration required

Facilitators: Carlie Felion, PhD, APRN, FNP-BC, PMHNP-BC, BC-ADM; Jessica Rainbow, PhD, RN, CNE; Ruth Taylor-Piliae, PhD, RN, FAHA, FAAN, WAN; University of Arizona College of Nursing

Location: Cedar Ballroom

During this interactive workshop, facilitators will describe various challenges encountered while conducting research studies and how they overcame them. Facilitators will then engage members of the audience in hands-on activities, buzz groups, concept mapping, and a gallery walk where they can share experiences and discover tips, tricks, and solutions to problems that may occur during research.

2:30-6:30 PM

Preconference: Whole Person Symptom Management: Adapting a Palliative Care Approach across Patient Populations

Presented by Washington State University College of Nursing

Pre-registration required

Facilitators: Andra Davis, PhD, MN, RN, University of Portland; Lisa Jaurigue, PhD, RN, CNE, Arizona State University; Mary Koithan, PhD, RN, Washington State University; Natalie Pool, PhD, RN, University of Northern Colorado; Dawn Stacey, RN, PhD, FRSC, FCAHS, FAAN, University of Ottawa; Lisa Taylor-Swanson, PhD, MACOM, Lac, University of Utah

Location: Birch Ballroom

The National Institutes of Health is increasingly interested in developing models of care that are evidence-based, culturally aligned and safe, person-centered, and focus on whole person wellbeing and health. Palliative care provides a model that can be adapted and extended beyond its current conceptualization to inform symptom management strategies that align with these goals. This session will focus on the fundamental elements of palliative care model, how these elements can be transformed to address whole person symptom management across patient populations, evidence-based guidelines and resources available, exemplars of this adapted approach in three different populations, and implications for education and research.

Integrative Health Connection at WIN

Moderator: Mary S. Koithan, PhD, RN, CNS-BC, FAAN, Dean and Professor, College of Nursing, Washington State University

Location: Meeting Room 1

Integrative Health (IH) is a whole person/whole system approach to care that uses a full spectrum of strategies to improve health and wellbeing. In an integrative health approach to care, providers choose across a variety of evidence-informed choices that includes complementary/alternative modalities (CAM) as well as more traditional biomedical interventions. With the goal of choosing the best approach to care, IH is the ultimate interprofessional approach to care, drawing from a variety of practitioners, modalities and systems of medicine. WIN members with interest in research and education that has an IH focus are invited to creatively discuss how to support an integrative health presence at future research conferences through posters, presentations and symposiums.

PhD/DNP Collaboration and Clinical Networking Special Interest Group

Moderator: Perry Gee, PhD, RN, FAAN, Nurse Scientist, Intermountain Healthcare

Location: Meeting Room 2

The purpose of this interest group is to foster networking and collaboration among members with DNP and PhD degrees. Interest group members will have the opportunity to collaborate on abstract submissions, develop and implement projects, and provide collegial support to one another.

Trauma Informed Pedagogy in Healthcare Education

Moderator: Rana Halabi Najjar, PhD, RN, CPNP, Associate Professor, School of Nursing, Oregon Health & Science University

Location: Meeting Room 3

Participants seek to generate new knowledge regarding trauma informed teaching practices through research, and to infuse trauma informed best practices into our teaching. Our members teach across healthcare disciplines and programs, with the common interest of creating trauma informed learning environments.

WIN Gero-SIG

Moderator: Corinna Trujillo Tanner, PhD, RN, Assistant Professor, College of Nursing, Brigham Young University

Location: Meeting Room 4

This interest group is building a cadre of gerontological nurses to advance the mission of WIN in the context of improving care of the older adult. WIN GeroSIG abstracts will be awarded for excellence in gerontological research, theory development/conceptual, and methodological papers. Small group sessions provide opportunity for participants to network and discuss future collaborations.
