CREATING VISIONARY LEADERS IN HEALTH CARE

The Health Systems Leadership program teaches you to guide a team that identifies and solves issues in health care. The health landscape changes constantly as new technology, treatments, regulations, and challenges develop, and the world needs nurses who can navigate these complexities and deliver care to all. Become a leader at USF and make an impact in your community.

Congratulations

Sandra J. Weiss, PhD, RN, FAAN

*Professor and Robert and Delphine Eschbach Endowed Chair
in Mental Health Nursing*

2026 WIN Distinguished Research Lectureship Award

Sandra's groundbreaking research has profoundly influenced advances in disease prevention and health promotion for very young children and pregnant women. She has contributed to over 540 publications and as a skilled educator, administrator, and mentor, created opportunities for countless emerging nurse scientists to thrive.

*Thank you, Sandra, for shaping
the care and health of generations.*

Mayo Clinic Nurse Scientists

Nursing research that changes lives.

ARE YOU READY TO BE THE NEXT ASSOCIATE DEAN FOR NURSING RESEARCH?

Mayo Clinic in Rochester is hiring a leader that will inspire and shape the future of nursing on a global stage. As the Associate Dean for Nursing Research, you will guide a talented community of nurse scientists dedicated to improving the lives of patients and families through discovery and innovation.

This role is grounded in a patient-centered, collaborative culture that offers strong institutional support and resources. More than a leadership position, it is an opportunity to grow professionally while making a lasting difference in nursing practice and healthcare worldwide.

10 YEARS | A LEGACY OF TRANSFORMATION

An Ecosystem of Excellence and System Transformation

The promise of tomorrow is already here: a future where technology amplifies caring, where innovation strengthens humanity, and where professional nursing stands as both a steward of compassion and an architect of progress in a world yet to be realized.

Within integrated health care systems, nurses serve not only as clinicians and leaders, but as scientists generating new knowledge. The role of the nurse scientist affirms nursing's responsibility to lead research that informs practice, leadership decisions, and system design. This progress is realized through PhD-DNP partnerships, linking discovery to implementation, evidence to outcomes, and scholarship to transformation across health systems.

Love people and serve them!

General Information

The Western Institute of Nursing acknowledges that the conference is being held on the unceded Ancestral homeland of the Ramaytush Ohlone peoples, who are the original inhabitants of the San Francisco Peninsula. We recognize that the Ramaytush Ohlone understand the interconnectedness of all things and have maintained harmony with nature for millennia. We honor the Ramaytush Ohlone peoples for their enduring commitment to Mother Earth. As the Indigenous protectors of this land and in accordance with their traditions, the Ramaytush Ohlone have never ceded, lost, nor forgotten their responsibilities as the caretakers of this place, as well as for all peoples who reside in their traditional territory. As uninvited guests, we affirm their sovereign rights as First Peoples and wish to pay our respects to the Ancestors, Elders and Relatives of the Ramaytush Community.

Registration

All participants must register for the conference and wear their name badges at all times.

Continuing Nursing Education Credit

This nursing continuing professional development activity was approved by Oregon Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.

A maximum of 19.0 contact hours is available for the conference. The expiration date for awarding contact hours is December 31, 2026. All evaluations are completed online.

None of the presenters or planners for this activity have relevant financial relationships with ineligible companies to disclose.

To receive your certificate:

- Visit the online evaluation site, which will be emailed to you along with log-in information, and complete an evaluation of every **preconference**, **plenary**, and **concurrent session** you attend. You may log in during the conference or following the conference to complete the evaluations.
- Complete the overall conference evaluation form, which will be available after the conference has adjourned.
- Once all evaluations are complete, including the overall conference evaluation form, the system will calculate your contact hours and you may print your certificate. The print option will not be available until the conference has adjourned, at which time the overall evaluation form will be available.

The WIN Program Committee uses your feedback to assist in planning future conferences.

Silent Auction

WIN's annual Silent Auction will be held in Yosemite beginning at 1 p.m. on Wednesday and ending at 5 p.m. on Thursday. All proceeds benefit the WIN Endowment Fund, which supports the annual WIN awards and grants.

Awards Lunch

WIN awards will be presented during the Awards Lunch on Wednesday from 12:30 to 1:30 p.m. Pre-registration is required.

Special Interest Groups

Special Interest Group meetings will be held on Wednesday and Thursday evenings and are open to all.

Posters

WIN peer-reviewed posters have been grouped by keyword/topic. Research and Information Exchange (R&IE) posters have been grouped by member institution. There is one hour during each of the four poster sessions in which the primary scheduled activity is viewing posters. Presenters should stand by their posters during these hours.

Special Appreciation

We extend our gratitude to our Board of Governors, Program Committee, abstract reviewers, moderators, and to all WIN committee members. A list of committee members appears in the back section of the conference proceedings.

EXPLORE THE POSSIBILITIES OF AI IN NURSING

DISCOVER HOW THE TOOLS OF THE FUTURE CAN BE THE TOOLS OF TODAY

Face it: few AI tools in healthcare are created with nurses in mind. Thanks to a team of Boise State researchers, that's changing. Their work explores the possibilities of AI and how nurses can ethically incorporate it into their education and practice.

“We need nurses to engage,” said Dr. Jason Blomquist, a member of the research team. “None of us are going to be computer scientists, but we should have some basic knowledge about AI so that we can know how to contribute to the conversation.”

Boise State students are prepared to thrive in the evolving landscape of nursing. They study healthcare technology & informatics, design thinking and innovation so they can be a part of the discussion and development of healthcare technology.

2026 WIN CONFERENCE

NAVIGATING THE CURRENTS IN HEALTHCARE AND ACADEMIA: BRIDGING RESEARCH, PRACTICE, AND EDUCATION

TUESDAY, APRIL 21

11 AM - 8 PM

Conference Registration Open

Location: Yosemite

12 - 3 PM

Preconference: Preparing the Next Generation: Teaching Serious Illness and Palliative Care Competencies

Pre-registration required

Location: Franciscan CD

Facilitators: Andra Davis, PhD, MN, RN; University of Portland; Megan Pfitzinger Lippe, PhD, MSN, RN, CNE, ANEF, FPCN, FAAN; UT Health San Antonio; Rhoberta Haley, PhD, RN; Pacific Lutheran University

Preparing the nursing workforce to provide high-quality care for individuals with serious illness requires the purposeful integration of palliative care competencies across the curriculum. This interactive workshop will introduce nursing faculty to practical tools and strategies for incorporating serious illness and palliative care content into classroom, clinical, and simulation learning environments. Led by ELNEC education champions who are advancing innovative models of palliative care education, the session will guide participants in aligning palliative care competencies with the AACN Essentials, applying competency-based teaching and evaluation methods, and engaging students through experiential learning activities. Faculty will leave with concrete strategies, ready-to-use resources, and a curated toolkit to strengthen their teaching and leadership in preparing the next generation of nurses to competently and compassionately care for individuals and families facing serious illness.

3:30 - 6:30 PM

Preconference: AI Essentials for Nursing: Practical Strategies for Education & Research

Pre-registration required

Location: Franciscan CD

Facilitators: Sarah Llewellyn, PhD, RN; Boise State University, Anthony Tolentino, PhD, RN, NI-BC, FAMIA; University of California, Los Angeles; Jason Blomquist, MAOL, BSN, RN, NEA-BC, CHSE; Boise State University

This foundational session is designed for nursing researchers and educators who are new to artificial intelligence or are seeking to better understand AI's increasing role in healthcare and nursing education. Participants will gain essential knowledge about AI fundamentals, explore the current landscape of AI applications in nursing and healthcare settings, and engage in discussions about the critical importance of integrating AI literacy and fluency into nursing curricula to prepare future nurses for technology-enhanced practice environments. The session will also provide hands-on guidance for getting started with AI tools, offering practical strategies for initial exploration and interaction that participants can immediately apply in their own research and educational contexts. By the end of this session, attendees will have both the conceptual framework and practical foundation needed to confidently begin incorporating AI considerations into their work as nursing educators and researchers.

SPECIAL INTEREST GROUP MEETINGS (GROUP 1)

Integrative Health Connection at WIN

Moderator: Mary S. Koithan, PhD, RN, CNS-BC, FAAN, University of Washington

Location: Franciscan B

Integrative Health (IH) is a whole person/whole system approach to health care that uses a full spectrum of strategies to improve health and wellbeing. In an integrative health approach to care, providers choose across a variety of evidence-informed choices that includes complementary/alternative modalities (CAM) as well as more traditional biomedical interventions. With the goal of choosing the best approach to care, IH is the ultimate interprofessional approach to care, drawing from a variety of practitioners, modalities and systems of medicine. WIN members with interest in research and education that has an IH focus are invited to creatively discuss how to support an integrative health presence at future research conferences through posters, presentations and symposiums.

PhD/DNP Collaboration and Clinical Networking Special Interest Group

Moderator: Trisha Saul, PhD, RN, Director of Research, Providence Health & Services

Location: Franciscan C

The purpose of this interest group is to foster networking and collaboration among members with PhD and DNP degrees. Interest group members will have the opportunity to collaborate on abstract submissions, develop and implement projects, and provide collegial support to one another.

Trauma Informed Pedagogy in Healthcare Education

Moderator: Doria K. Thiele, PhD, CNM, RN, Associate Professor, California State University, Sacramento

Location: Franciscan D

Members of the Trauma Informed Pedagogy in Healthcare Education Special Interest Group seek to generate new knowledge regarding trauma informed teaching practices through research, and to infuse trauma informed best practices into our teaching. Our members teach across healthcare disciplines and programs, with the common interest of creating trauma informed learning environments.

WIN Gero-SIG

Moderator: Corinna Trujillo Tanner, PhD, RN, Assistant Professor, Brigham Young University

Location: Imperial Ballroom A

This interest group is building a cadre of gerontological nurses to advance the mission of WIN in the context of improving care for the older adult. Student and non-student abstract awards will be presented for excellence in gerontological research, theory development/conceptual, or methodological papers.

WIN-E (Environmental Health Special Interest Group)

Moderator: Tara Marko, PhD, RN, Assistant Professor, California State University, San Marcos

Location: Imperial Ballroom B

This is a forum for environmental health researchers, educators, and advocates, and anyone interested in the relationships between the natural environment and health, and between nursing practice and the environment. This is a chance to learn of the interests of others and explore opportunities for collaboration.

Associate Deans for Education and Directors of Academic Programs/Affairs

Moderator: Joanne Noone, PhD, RN, CNE, ANEF, FAAN, WIN Governor Representative of Nursing Education

Location: Franciscan A

This special forum is for associate deans and directors of academic programs/affairs. The focus is on issues relevant to academic program quality, curriculum development, accreditation, and student performance.

Navigating Challenges with a Beacon of Hope

Presented by the Western Academy of Nurses (WAN)

Moderator: Adrienne Martinez-Hollingsworth, PhD, RN, PHN, WAN, Director of Research & Evaluation, AltaMed Institute for Health Equity

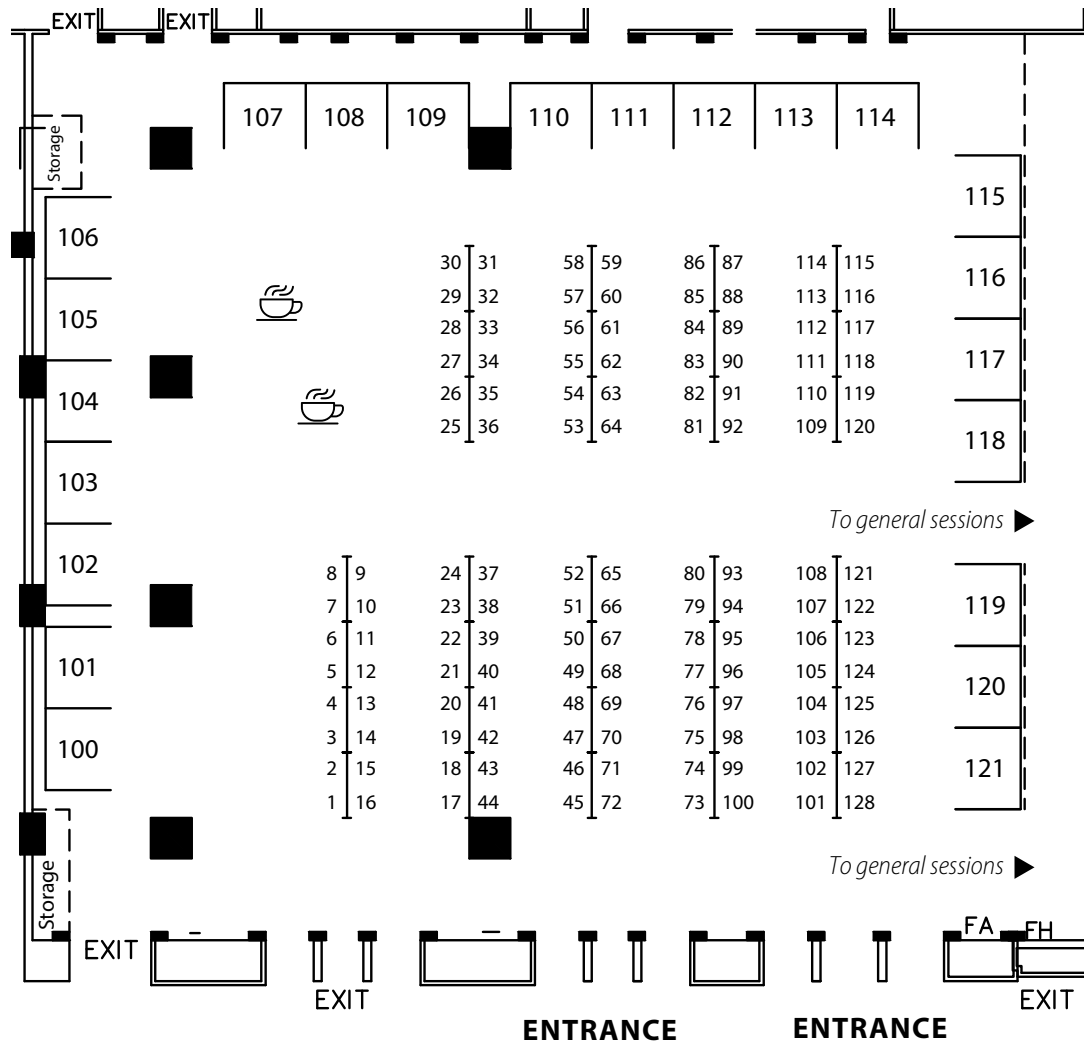

This is an interactive, arts-based session designed to reconnect nurses with their foundational motivations for choosing the profession and re-illuminate their inner sources of strength during times of professional and personal

challenges. This session builds upon Jean Watson's Theory of Human Caring and emphasis on caritas, the deep moral commitment to human dignity, altruism, and interconnectedness. Through this lens, participants will explore the essence of caring as a unifying ethos that transcends practice settings, generations, politics, and cultures. Following an introduction, participants will be invited to engage in a hands-on, non-verbal reflective exercise: decorating a small wooden lighthouse ornament that symbolizes their personal "beacon of hope." Each lighthouse represents an internal motivator, core value, or guiding belief that sustains their commitment to nursing. Art supplies will be provided. Following the exercise, participants will share the meaning of their lighthouse within small table groups, fostering dialogue, mutual support, and peer recognition.
