

2025 WIN CONFERENCE

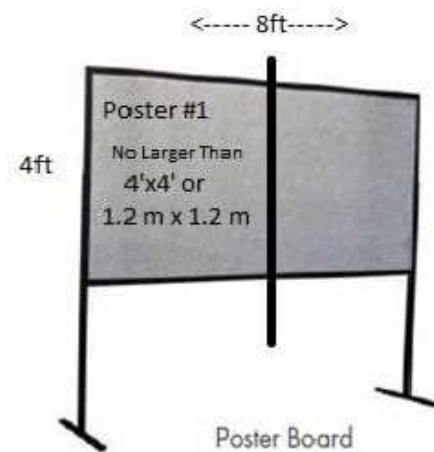

Redesigning Nursing for New Frontiers in Health

April 8-11, Spokane, WA

Information for Poster Presenters

Please note that there will be two posters displayed on each side of every poster board. The display area allocated to each poster is 4' x 4'. Please ensure that your poster does not exceed this size. It is recommended that you leave a margin of at least 3 inches around your poster.

Each Poster Board measures 4ft x 8ft and will be used to display 2 posters on each side. Posters should NOT be larger than 4'x4' or 1.2 m x 1.2 m from edge to edge including all boarders.

Poster presenters must print their posters in advance of the conference and bring their posters to the conference with them.

Each poster presentation will be assigned a number on the conference mobile app and in the digital conference program. Each poster board will be numbered. Poster presenters should hang their posters on the poster boards that correspond with the numbers assigned on the mobile app/digital conference program.

Push pins will be provided for hanging the posters.

Posters should be easy to read from a distance. Caption your poster with the abstract title and authors' names and affiliations. Presentations should be simple and clear, and a combination of text, graphics, and QR codes is recommended. Minimize narrative. Numbered or bulleted lists are effective at conveying a series of points.
